

Fundamentals of Foreign Exchange Trading

Duration: 5 Days

Language: en

Course Code: IND09-103

Objective

Upon completion of this course, participants will be able to:

1. Understand the nature of Foreign Exchange (FX) markets and exchange rates.
2. Describe the different types of FX transactions and how they are used.
3. Explore the four types of Derivatives in detail: Futures, Options, Forwards, and Swaps.
4. Analyse multiple strategies to manage risk in FX trading.
5. Review tips and techniques for FX trading.

Audience

This course is intended for:

- Managers and Supervisors working with Foreign Exchange
- Professionals in Risk Management
- Derivative Traders
- Foreign Exchange Dealers
- Anyone looking to understand Foreign Exchange Trading

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review case studies to highlight key areas of importance and possible areas for faults. They will be supplied with the best tools required for learning exercises to improve their skills. Participants will analyse the examples to thoroughly understand how these skills, techniques and methods apply in the workplace.

Summary

This course provides a fundamental understanding of how Foreign Exchange (FX) markets function and the instruments used to trade successfully. You will learn about the types of FX transactions and how to manage them.

Exchange rates fluctuate, and to offset the volatility in the market, you will study risk management techniques. Specific attention will be given to hedging strategies, how to use Derivatives to reduce risk, and approaches specific to Options trading. In addition, to support a confident understanding of FX trading, the course includes a section on trading strategies and techniques.

Course Content & Outline

Section 1: Foreign Exchange Markets

- Describe the different foreign exchange rate systems and their variants.
- Discuss market size and the types of FX transactions.
- Understand Forex/FX quotes.
- Distinguish between base and counter currencies.
