

Effectively Managing Supplier Relationships

Duration: 5 Days

Language: en

Course Code: PM2-117

Objective

Upon completion of this course, participants will be able to:

- Develop an understanding of the connections between suppliers, customers, and value.
- Demonstrate the practicality of managing supplier relations.
- Identify the benefits of being a supplier-focused organisation and ways to secure supplier relationships.
- Discuss how to mitigate the challenges in supplier relationship management.
- Explore ways to align your suppliers and customers effectively.

Audience

This course is intended for:

- Supply Chain Managers and Supervisors responsible for supplier management/supplier relations.
- Anyone looking to understand effective supplier management.

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review case studies to highlight key areas of importance and possible areas for faults. They will be supplied with the best tools required to carry out learning exercises to improve their skills. Participants will analyse the examples to thoroughly understand how these skills, techniques and methods apply in the workplace.

Summary

Supplier management oversees all aspects of supplier interactions to ensure maximum value for your company. This course provides an overview of managing supplier relationships, focusing on the key components of those relationships and the practicality of supplier management.

By exploring strategies to build supplier relations successfully, you will identify ways to mitigate any challenges and examine how to secure those relationships. In addition, you will look at ways to align your suppliers and customers to establish productive working flows.

Course Content & Outline
