

Best Practices in Purchasing Management

Duration: 5 Days

Language: en

Course Code: PO1-124

Objective

Upon completion of this course, participants will be able to:

- Elaborate on the methods of developing high-performance purchasing departments.
- Develop a strategic purchasing plan that supports excellent internal customer service.
- Use analysis results to guide the procurement process.
- Describe methods for reporting Key Performance Indicators (KPIs).
- Identify the desired competencies for purchasing professionals.

Audience

This course is intended for

- Procurement and Contracts professionals
- Professionals in Purchasing, Contract Management, and Project Management
- Professionals in Engineering, Facilities, Maintenance, and Finance
- Professionals responsible for planning and managing the tender process

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review case studies to highlight key areas of importance and possible areas for faults. They will be supplied with the best tools required for learning exercises to improve their skills. Participants will analyse the examples to thoroughly understand how these skills, techniques and methods apply in the workplace.

Summary

Purchasing management is crucial to your organisation's profitability by ensuring you obtain suitable goods for the right price at the right time. A proactive approach to purchasing, focusing on flexibility, creativity, and an understanding of the supply market, all contribute to organisational excellence in purchasing.

This course provides you with skills to lead the purchasing process at your organisation by learning appropriate management strategies, leveraging continual improvement, and effectively managing suppliers. You will examine Key Performance Indicators (KPIs) and use them to guide decision-making. In addition, you will analyse the core skill set required for professional excellence in the field of purchasing and procurement.
