

3-Dimensional Leadership Patterns

Duration: 5 Days

Language: en

Course Code: MG2-154

Objective

Upon completion of this course, participants will be able to:

- Create a positive and safe working environment.
- Understand and explain the 3-Dimensions of Leadership.
- Appropriately delegate work assignments within a team.
- Implement the processes of Change Management for continuous improvement.
- Adjust leadership styles to achieve a desirable outcome.
- Recognise and support all roles within the business.
- Establish and participate in activities that encourage positive organisational outcomes.

Audience

This course is designed for anyone who wants to develop their leadership skills to further excel within their career. It would be most beneficial for:

- Operations Managers

- Project Managers
- Production Managers
- Senior Executives
- Executive Directors
- Plant Managers
- Sales Directors
- Regional Managers
- Development Directors
- Directors of Operations
- HR Managers

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review studies of 3-Dimensional Leaders to understand the vitality of being a prominent leader. These observations of established and successful leaders will offer examples of 3-D concepts within the workplace that can be implemented.

In teams, participants will review leadership examples, identify how they have incorporated 3-dimensional Leadership within their business, and analyse how this has led to success. Furthermore, in role-playing activities and group projects, participants will interpret these concepts, apply them to themselves, and practice the Change Management and Emotional Intelligence methods. Participants will be able to provide feedback to each other to develop their skills further. This hands-on learning method is crucial for participants to gain a thorough understanding of 3-D Leadership, as well as comprehensive knowledge of the theories and ways to incorporate them into the workplace.

Summary

Becoming a good leader requires years of skill development, and no two leaders are alike. However, they often follow similar models.

The 3-Dimensional Leadership Patterns enhance business effectiveness by focusing on employees rather than the business or its services. Key elements include clear communication, setting expectations, an empathetic yet firm approach, and boosting morale.

Effective task delegation requires understanding different employee types, encouraging optimal performance, and aligning their skills with business needs. The 3-D method emphasizes process knowledge, time management, and adjusting to potential disruptions while maintaining a positive environment.

This model recognizes each person's contribution and teaches essential leadership values, viewpoints, and perspectives.

Course Content & Outline

Section 1: An Introduction to Leadership

- The importance of organised leadership.
- Mediating between business needs and staff welfare.
- Assess conceptual models of modern leadership.
- Understand the consequences of poor leadership and management.

Section 2: 3-Dimensional Leadership Patterns
