

## Strategic Analytics and Effective HR Metrics

**Duration:** 5 Days

**Language:** en

**Course Code:** PH1-101

### Objective

Upon completion of this course, participants will be able to:

- Understand HR's role in your company and broader business goals.
- Develop comprehensive problem-solving skills to achieve a data-led outcome.
- Discuss advances in HR technology and their benefits.
- Effectively use people management to resolve broader workforce problems.
- Solve incidents regarding organisational change.
- Collect, store and use accurate HR data to achieve positive results.

## Audience

This training is suitable for anyone within a professional organisation who is part of an HR department, has direct line management responsibilities, or has overall reasonability for rewarding contractual work. It would be especially beneficial for:

- HR Professionals
- Senior Managers
- Managing Directors
- Aspiring Managers
- Data Analysts
- Union Representatives

## Training Methodology

This course covers a range of content methods, including group discussions, trainer-led seminars, and practical activities alongside video and written learning content to suit all learning styles.

You'll experience problem-solving challenges and paper-based tools to assist you with accurate decision-making and create an accurate future-proofing mock-up plan to ensure a great return on investment.

## Summary

In this training course, you will discover how to accurately track analytical people data and process strategic decisions to build successful business models and work

towards improving company practices.

You will uncover how HR data is used to demonstrate an ROI in the eyes of key stakeholders and understand the effectiveness of skilled management in ensuring the company's overall success and potential investment opportunities.

The sessions will provide you with the knowledge and expertise to review processes, create action plans for development using your available workforce based on HR analytical data, and track the results to accurately determine success rates.
