

# Using Professional Language In An Executive Setting

**Duration:** 5 Days

Language: en

Course Code: IND19-101

# **Objective**

Upon completion of this course, participants will be able to:

- Understand the vitality of using professional language in an executive setting.
- Evaluate the importance of using the correct tone when conveying a crucial message.

- Confidently use professional language across different forms of communication written, phone calls, and face-to-face.
- Comprehend complex information provided in a professional language and relay it to those necessary.
- Successfully engage with important personnel and communicate clearly and concisely.
- Be capable of translating unprofessional language or alternative information sources into professional language.
- Assess external factors that may influence how a message is received.

## **Audience**

This course is designed for anyone in a senior management or executive position who wishes to develop their skills and knowledge relating to professional language. It would be most beneficial for:

- Senior Executives
- Business Directors
- Operations Managers
- · Regional Managers
- Business Owners
- Chief Executives
- Vice Presidents

## **Training Methodology**

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review case studies of successful business executives to highlight their communication methods and the effectiveness of their use of professional language.

The participants will use a combination of learning methods, including seminars, group discussions, case studies, and group activities. These will allow ample opportunities for the participants to fully develop their comprehension of the taught content and related skills. The group activities enable them to demonstrate their understanding and use constructive criticism to refine their capabilities.

## **Summary**

Effective communication is absolutely crucial to business success. Appropriate communication with all influential parties relating to an organisation ensures that all processes and functions are being conducted at maximum proficiency. It also guarantees that client needs can be easily communicated and met to ensure full satisfaction.

Professional language is a skill that needs to be developed over time. While within the business world, there is an unwritten standard of what is deemed professional, it will vary depending on the individual. Professional language will primarily be focused on the exact wording used. This language will be utilised in all business areas, and often must be adjusted depending on the situation and who the receiving audience is. Overusing specific wording or phrases can reduce the message's impact, so one would also assess and

filter out overused or weak wording.

Furthermore, communication does not end with physical language. For professional language to be completely effective, the tone and body language of how the message is presented also need to be considered. Presenting information openly and confidently will be much more engaging for the audience, and they will be much more willing to cooperate with the speaker.

### **Course Content & Outline**

#### Section 1: Fundamentals of Professional Language

- The importance of communicating with a purpose.
- Maintaining engagement with the audience through tone and language.
- How the type of language used can dictate how a message is received.
