

Advanced Law and Ethics in Paediatrics Care

Duration: 5 Days

Language: en

Course Code: PO5 - 113

Objective

Upon completion of this course, participants will be able to:

- Understand the legal principles and regulations relevant to pediatric care.
- Analyse ethical dilemmas specific to paediatrics.
- Apply ethical and legal decision-making frameworks in pediatric settings.
- Enhance communication skills for discussing ethical and legal issues with families and healthcare teams.
- Promote best practices for safeguarding the rights and well-being of pediatric patients.

Audience

This course is intended for:

- Pediatric healthcare professionals
- Medical practitioners
- Nurses and allied health professionals
- Hospital administrators
- Clinical researchers in paediatrics
- Graduate students in medicine and healthcare

Training Methodology

The course employs a blend of instructional methods, including:

- Interactive lectures
- Case-based learning
- Group discussions and role-playing
- Expert-led Q&A sessions
- Comprehensive course materials and resources

Summary

This advanced course comprehensively explores the legal and ethical challenges in pediatric care. Participants will gain in-depth knowledge of the legal frameworks governing pediatric healthcare, ethical decision-making in complex cases, and the best practices for ensuring the rights and welfare of pediatric patients. Through case studies and interactive sessions, the course integrates theoretical knowledge with practical applications.
