

Advanced Health Policy and Practice

Duration: 5 Days

Language: en

Course Code: IND17 - 109

Objective

Upon completion of this course, participants will be able to:

- Understand the fundamental concepts and frameworks in health policy.
- Analyse the impact of political, economic, and social factors on health policy.
- Develop skills to formulate, implement, and evaluate health policies.
- Explore global health policy issues and comparative health systems.
- Enhance their ability to advocate for effective health policies and practices.

Audience

This course is intended for:

- Public health professionals
- Policymakers and government officials
- Healthcare administrators
- Medical practitioners
- Health advocates and NGO representatives
- Graduate students in public health, policy, and related fields

Training Methodology

The course employs a blend of instructional methods, including:

- Interactive lectures
- Policy analysis workshops
- Group discussions and case studies
- Expert-led Q&A sessions
- Comprehensive course materials and resources

Summary

This advanced course provides a comprehensive examination of health policy and practice. Participants will explore formulating, implementing, and evaluating health policies, gaining insights into the political, economic, and social factors influencing healthcare systems. The course combines theoretical knowledge with practical applications, preparing participants to shape and influence health policy effectively.
