

Comprehensive FIDIC Contract Management

Duration: 5 Days

Language: en

Course Code: IND13-112

Objective

Upon completion of this course, participants will be able to:

- Understand FIDIC contract types and their applications
- Master roles and responsibilities in FIDIC contracts
- Develop skills in contract administration and management
- Learn effective risk management and dispute resolution
- Apply FIDIC principles through practical case studies

Audience

This course is intended for

- Project Managers
- Contract Managers
- Construction Professionals
- Legal Advisors in the construction industry
- Quantity Surveyors

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review case studies to highlight key areas of importance and possible areas for faults. They will be supplied with the best tools required for learning exercises to improve their skills. Participants will analyse the examples to understand how these skills, techniques and methods apply in the workplace.

Summary

Comprehensive FIDIC Contract Management offers in-depth training on applying and managing FIDIC contracts within construction and engineering projects. This course covers the principles, procedures, and best practices essential for effective contract management under FIDIC guidelines.
