

International Supply Chain Mastery

Duration: 5 Days

Language: en

Course Code: PO1-133

Objective

Upon completion of this course, participants will be able to:

- Understand the fundamentals and complexities of global supply chains
- Develop skills in demand planning and inventory management
- Navigate international logistics and cross-border trade
- Leverage technology for supply chain efficiency
- Implement sustainable and ethical supply chain practices

Audience

This course is intended for:

- Supply Chain Managers
- Logistics Coordinators
- Procurement Specialists
- Operations Managers
- Business Analysts

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review case studies to highlight key areas of importance and possible areas for faults. They will be supplied with the best tools required for learning exercises to improve their skills. Participants will analyse the examples to understand how these skills, techniques and methods apply in the workplace.

Summary

International Supply Chain Mastery is a comprehensive course that provides in-depth knowledge of global supply chain management. It covers essential concepts, strategies, and tools needed to optimise supply chain operations and improve efficiency in a global context.
