

Advanced Data Protection & Compliance

Duration: 5 Days

Language: en

Course Code: PI2-105

Objective

Upon completion of this course, participants will be able to:

- Understand data protection principles and legislation.
- Implement data protection policies and procedures.
- Manage data risks and ensure compliance.
- Develop strategies for data governance and security.
- Handle sensitive data and protect data subject rights.

Audience

This course is intended for

- Data protection officers and compliance managers.
- IT and cybersecurity professionals.
- Legal advisors and consultants.
- HR, finance, and operations staff involved in data handling.
- Anyone responsible for data management within an organisation.

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Including:

- Interactive lectures and discussions.
- Practical case studies and real-world examples.
- Group projects and collaborative exercises.
- Hands-on training with data protection tools and frameworks.

Summary

This comprehensive course will equip participants with the skills and knowledge to manage data protection and ensure compliance with relevant legislation. Emphasising practical application, the course covers the fundamentals of data protection laws, risk management, and strategies for safeguarding data. Participants will learn to navigate complex regulatory environments and implement effective data governance frameworks through interactive sessions, case studies, and hands-on exercises.
