Summary

Building a Mentally Healthy Workplace Culture is an essential training program that equips employees and team leaders with the knowledge and confidence to support colleagues experiencing mental health challenges. This course promotes a supportive and stigma-free work environment by teaching practical tools to recognize early signs of distress and how to respond effectively.

In today's fast-paced and high-pressure workspaces, mental well-being is just as important as physical safety. This course empowers participants to act as the "first responders" in mental health situations, helping to build a culture of empathy and resilience at work.
