

Advanced FIDIC Contract Management

Duration: 5 Days

Language: en

Course Code: PO5-122

Objective

Upon completing this course, participants will:

- Gain a comprehensive understanding of all FIDIC contract types and their applications in complex projects.
- Master the roles and responsibilities of employers, contractors, engineers, and subcontractors in FIDIC contracts.
- Develop advanced skills in contract preparation, administration, and management.
- Learn to identify, assess, and mitigate risks in construction projects.
- Understand the detailed procedures for handling variations, claims, and disputes.
- Analyze advanced case studies to apply FIDIC principles in real-world scenarios.

Audience

This course is intended for professionals with prior experience in contract management or construction projects, including:

- Senior Project Managers
- Contract Managers
- Experienced Engineers
- Legal Advisors specializing in construction
- Senior Quantity Surveyors
- Risk Management Professionals

Training Methodology

This advanced course employs a dynamic and immersive learning approach to ensure participants can apply their knowledge in complex scenarios. Methods include:

- **In-depth Case Studies:** Real-world examples of FIDIC contract applications, including lessons learned.
- **Group Discussions:** Collaborative sessions to analyze challenges and solutions in contract management.
- **Problem-Solving Exercises:** Practical exercises to handle variations, claims, and disputes.
- **Expert Insights:** Presentations by industry experts on best practices and emerging trends.
- **Role-Playing Scenarios:** Simulations to practice negotiation and dispute resolution.

Summary

This advanced course is designed for experienced professionals who want to deepen their understanding of FIDIC contracts and their application in complex construction

and engineering projects. The course provides detailed insights into the roles and responsibilities of all parties, advanced contract administration techniques, and sophisticated risk management strategies. Participants will also explore dispute resolution mechanisms, analyze real-world case studies, and develop the skills needed to manage large-scale projects effectively.

Course Content & Outline

Section 1: Advanced FIDIC Contract Types

- Detailed analysis of FIDIC contract forms (Red Book, Yellow Book, Silver Book, etc.).
- Specific applications of each contract type in different project scenarios.
- Legal framework and standards governing FIDIC contracts.
-

Section 2: Advanced Roles and Responsibilities

- Comprehensive overview of employer and contractor obligations.
- Advanced subcontractor management techniques.
- The engineer's role in dispute resolution and project oversight.

Section 3: Advanced Contract Administration

- Complex contract preparation techniques.
- Managing variations, adjustments, and claims.
- Advanced payment procedures and financial management.

Section 4: Risk Management and Dispute Resolution

- Identifying and mitigating complex risks in construction projects.
- Advanced claims procedures and documentation.
- Dispute resolution mechanisms: mediation, arbitration, and litigation.
- Cost implications of claims and disputes.

Section 5: Practical Application and Advanced Case Studies

- Analysis of large-scale projects using FIDIC contracts.
- Case studies on successful and unsuccessful contract management.
- Best practices and lessons learned from industry leaders.

Certificate Description

Upon successful completion of this training course, delegates will be awarded a Holistique Training Certificate of Completion. For those who attend and complete the online training course, a Holistique Training e-Certificate will be provided.

Holistique Training Certificates are accredited by the British Assessment Council (BAC) and The CPD Certification Service (CPD), and are certified under ISO 9001, ISO 21001, and ISO 29993 standards.

CPD credits for this course are granted by our Certificates and will be reflected on the Holistique Training Certificate of Completion. In accordance with the standards of The CPD Certification Service, one CPD credit is awarded per hour of course attendance. A maximum of 50 CPD credits can be claimed for any single course we currently offer.
